General Information

PLEASE READ BEFORE ORDERING

ORDER EARLY—All orders filled in rotation—ordering early insures reservation of varieties that may later be sold out. Small orders receive the same careful attention as the large ones.

SUBSTITUTION—Orders are filled with varieties called for, and we never substitute unless directed to do so.

GUARANTEE—We guarantee every root and plant to be true to name and in good growing condition when sent out by us. We will cheerfully replace any that may prove otherwise, but will not be held responsible for any amount in excess of the purchase price. If for any reason roots fail to sprout, we will replace same with a perfect root or refund the purchase price if sold out. However, we will not be responsible if they are kept in a too dry place a long time before planting or otherwise abused.

SHIPPING—We begin shipping dahlia roots after May 1st, unless notified for earlier delivery. Green plants after May 15th. Dahlias ordered shipped before April 15th will be sent only at purchaser's risk of drying out or freezing.

TERMS—Cash with order or in advance of shipment. No goods sent C. O. D. unless 50 per cent of purchase price accompanies order.

REMITTANCES—Should be made by bank draft, post-office money order or registered letter. Postage stamps accepted up to \$2.00.

SIZE OF ROOTS—The size of the root does not in any way indicate the size of the plant or flower. Some varieties of dahlias always produce small roots, while other varieties make large ones. A good many of the best varieties have very small roots, so do not consider small roots worthless. Any root with a good growing bud will grow, and make a good plant if properly looked after.

ERRORS—In the rush of the shipping season, errors are possible to occur. Kindly notify us promptly so that proper adjustment can be made at once. Kindly keep a copy of your order for comparison.

CANADIAN CUSTOMERS PLEASE NOTE

In accordance with the ruling governing the importation of Nursery Stock from the United States into Canada, it will be necessary to obtain a permit from the Secretary of the Destructive Insect and Pest Act Advisory Board, Department of Agriculture, Ottawa, and file same with the Collector of Customs before shipment can be cleared. Seeds are exempt from this ruling, and may be shipped into Canada without a permit. Dahlias and gladiolus roots come under the classification of Nursery Stock.

This ruling must be complied with in order to make delivery, and we ask you, in the event of an order, to secure this permit, advising us of the number of the same, that we may mark it on the outside wrapper.

DAHLIA GREEN PLANTS

Our green plants are propagated right, grown right, and guaranteed to reach you in good condition. We ship every year thousands of plants to all parts of the country, and the repeat orders from satisfied customers, and our increasing new business has made it necessary to increase our propagating space. Our method of packing insures safe delivery.

1931

Our 1931 catalog brings greetings to our friends, old and new, and we take this opportunity to express our appreciation for the generous patronage we have received in the past, and to assure you that we will do all in our power to merit a continuance of your support in the coming season.

While our collection is not "The Largest in the World," we consider it one of the best selections of up-to-date dahlias that have stood the test in the trial gardens and shows. Every year we discard many varieties, no matter how much they cost us, if they do not measure up to our standard.

We spray and dust all our growing stock regularly during the growing season, so are in position to fill your orders with clean, healthy, field-grown stock.

We extend a cordial invitation to one and all to visit our gardens, where you will find growing the latest novelties in dahlias, delphinium, gladiolus, and other garden favorites.

We are located on the Willimantic-Norwich trunk line, adjoining the Willimantic Camp Meeting ground.

Thanking you again for past favors, assuring you that all orders will receive our best attention.

GEO. W. FRASER.

Member American Dahlia Society, Connecticut Horticultural Society, Dahlia Society of New England, National Association of Commercial Dahlia Growers.

COLLECTIONS

To those not acquainted with the various classes and varieties of dahlias, we would suggest that you leave the selection to us. Tell us what colors you most prefer, and the amount of money you wish to invest, and we send you a collection that cannot fail to give you satisfaction.

NOVELTIES FOR 1931

OUR OWN INTRODUCTION

SHETUCKET (Fraser) F. Dec.—A seedling of Jersey's Beacon, very much like the parent in growth. The large flowers are of perfect formation and held high above the foliage on strong stiff stems; color, Cinnamon Buff, with pink suffusions. Free flowering; height 3½ ft. Size of bloom 7-10 in. **Roots \$10.00; Plants \$5.00**

GUNGYWAMP (Newberry-Fraser) F. Dec.—A medium growing plant with clean leathery foliage. The large flowers are borne on stiff stems in great profusion making it a wonderful garden decoration, as well as an exhibition variety. Color, Bittersweet Orange with suffusions of yellow. Size of bloom 8-10 in. **Roots \$10.00; Plants \$5.00**

WINDHAM GLORY (Sweeney) F. Dec.—Plant growth rugged does not require staking. Blossoms are huge, prolific, color of bud on opening peach, with upper petals orange yellow with a reverse of peach red, giving a splendid two-toned effect. Blooms early, many plants have ten perfect exhibition blooms at one time. Certificate of Merit, Storrs, 1929. **Roots \$5.00; Plants \$2.50**

SNOWCAP (Diggle) F. Dec.—Good white varieties seem to be plentiful this season but this one will hold its own with the best. In our gardens last year it proved to be our most dependable variety. The habit of growth is ideal, clean, healthy, and insect resisting. The flowers retain their perfect form from early season until frost and are carried on stiff stems well above the foliage making the name Snowcap very appropriate. **Roots \$10.00; Plants \$5.00**

ASBURY PARK (Wood) F. Dec.—One of the outstanding varieties of 1930. Awarded seven First Prizes and Certificate of Merit. 1930 Honor Roll. Immense flowers of a beautiful autumn color—copper salmon tinted with old gold, carried erect on strong stiff stems. Habit of plant good, insect and disease resisting. **Roots \$15.00; Plants \$7.50**

ANDREA ERICSON (F & M) I. Dec.—Pure white. The large fluffy flowers are carried on strong stems and in form resemble Fort Monmouth. Won many prizes last season. A fine addition to the whites. **Roots \$10.00 net; Plants \$5.00**

FRASER'S TESTED DAHLIAS

DWIGHT W. MORROW (Dahliadel) I. Dec.—An immense red flower that is sure to make a hit on exhibition or in the garden. A rich deep cardinal red with plenty of life under either natural or artificial light. The habit of the plant is perfect in growth, dark green foliage with strong stems.

Roots \$15.00; Plants \$7.50

FRAU O. BRACHT (Berger) Str. Cac.—This German variety was the sensation of the last New York Show. The color is clear, pale primrose yellow, and the medium to large flowers are very distinct and carried on long stiff stems. Habit of growth good. Honor Roll 1930. Certificate of Merit, Storrs, 1929.

Plants only \$2.50

JOSEPHINE G. (Grosscross-Ruschmohr) S. Cac.—One of the most charming dahlias that we have seen. The color is bright rose-pink, with suffusions of yellow and the flowers are borne on long stiff stems. Habit of plant good; free flowering. Certificate of Merit, Storrs, 1929. Honor Roll 1929-1930. Roots \$7.50; Plants \$3.75

KARL BONAWITZ (Dahliadel) S. Cac.—This artistic semi-cactus variety made a great hit at the shows last fall. The flowers are borne on long stiff stems and are perfect in formation; color, velvety carmine; habit of growth perfect.

Roots \$15.00; Plants \$7.50

1930 NOVELTIES

That Stood the Test of a Hard Season

MARAGARET F. WYLIE (Fraser) I. Dec.—In this variety we have the most artistic decorative dahlia we have ever grown; the immense loose petalled flowers are a beautiful shade of rose-red, reverse of petal rose-pink and silver; borne in profusion on long stiff stems. The plants are of medium growth, with clean glossy foliage apparently insect and disease proof; comes in bloom early, in fact was the first to bloom in our gardens and continued right up to frost. It makes a wonderful cut flower as it is one of the few varieties of dahlias that open up and expand when cut and put in water. Won the prize at the Connecticut Horticultural Society Show, Hartford, Conn., for the outstanding seedling in the show. Mentioned in the American Home "Roll of Honor," 1929. "It is unlike any Dahlia we know, therefore, we are at a loss to make any comparison."—Derrill W. Hart, in The American Home, December, 1929. Stock limited.

FRASER'S TESTED DAHLIAS

ORINDA (Newberry) F. Dec.—Orinda made a clean sweep of the prizes at the 1929 Boston Show, winning The American Home Achievement Medal, the Dahlia Society of New England Gold Medal, and two other Firsts, offered for the outstanding new variety. Color one-toned rich mauve-pink. Immense flowers of perfect decorative form carried attractively on long stiff stems. Plants are vigorous and are apparently insect and disease proof. Mentioned in The American Home "Roll of Honor." "No one of the new Dahlias is sturdier nor has better blooming habits. We are proud to see such varieties win our Achievement Medals."—Derrill W. Hart, in The American Home, December, 1929 and 1930.

Plants \$5.00

YELLOW PILGRIM (Pilgrim Gardens) S. Cac. An exhibition and commercial hybrid-cactus, of perfect form. The keeping qualities of this variety are most remarkable. The color is deep picric yellow; free flowering; splendid stems. Roots \$5.00; Plants \$5.00

CARDINALIS (James Kennedy) F. Dec.—It is a brilliant Cardinal Red, resembling Elite Glory in general formation, but with more attractive foliage and a brighter color. "Imagine a handsome soldier in red coat on parade and you have a partial visualization of this remarkable dahlia." Roots \$10.00; Plants \$5.00

CORA BUTTERWORTH (Chapman) I. Dec.—"It is a giant bloom with a long excellent stem, holding the blooms out and up, never the least pendant in the hottest weather. Color is a rich glistening Primrose Yellow." Roots \$7.50; Plants \$3.50

JUNE JUSTICE (Success) I. Dec.—Most dark colored Dahlias seem to have a dullness to them but it is just the opposite in this new creation; the trial garden report reads: "A mixture of Rhodmine purple and tyrian rose. No color like it in book. Very brilliant in color. Strong stems hold the very large bloom erect. Height, 5 feet." Strong field Tubers \$10.00; Plants \$5.00

EDWARD THOMAS BEDFORD (Bedford Gardens) I. Dec.—Color, purple-violet; deeper than Violet Wonder. The plants are of medium height, foliage clean and resistant; the large flowers are carried on long stiff stems; free flowering, a great exhibition variety.

Roots \$7.50; Plants \$3.50

ALICE STELLICK (Rhindfleisch) I. Dec.—A distinct novelty decorative. Those who have seen this variety have commented on its unusual beauty. The petals are white with red edges, making it one of the most colorful dahlias in the garden. Large flowers, good stems.

Plants Only \$5.00

DELPHINIUM

(Perennial Larkspur)

No garden is complete without these charming flowers. They are not hard to grow, any well drained garden soil suits them if reasonably well fertilized, watered and cultivated during the growing season.

Our strain of Delphinium Hybrids are unsurpassed by any in the country for their wonderful size, and exquisite beauty. The plants often attain eight to ten feet in height, and the spikes are covered with double and semi-double flowers of marvelous size and beauty.

We have a specially fine lot of field-grown one-year-old plants that are guaranteed to give satisfaction at 75c each, \$7.50 per doz.

Visit our gardens and make a personal selection of the varieties you want, we charge according to the merit of the plants selected. For those that cannot make a personal selection we offer some of our choicest Hybrids at \$2.50, \$3.50, \$5.00, \$10.00 and up, each.

Pot-Grown Delphinium Seedlings

These plants are seedlings of our choicest varieties, and will bloom the first year, beginning about the end of July and continuing until frost. These seedlings present the most economical way of obtaining a collection of choice delphiniums as they can be mailed all over the U. S. A., at little cost, or risk of injury.

For spring delivery only we offer them at 50c each, \$5.00 per dozen.

Seed selected from choicest varieties \$2.50, \$1.00. 50c per packet.
